

The people have spoken - I do not want unsolicited phone calls.
Do something else - like how about the unsolicited "adult?" trash
that comes to my e-mail address - why don't you do something about
that? Suggestion: have a list of people that sign up for, want
to receive calls from telemarketers or receive "adult" material to
their e-mail address - then everyone would be happy & I'm sure the
list would be much smaller & more manageable.
